C. J. HEWLETT & SON'S

Veterinary Specialities.

Gold Medal, International Exhibition, 1884. Silver Medal, Calcutta Exhibition, 1884

BLISTER OINTMENT.

Specially made from the finest Cantharides, certain in action and easily applied.

Largely employed by the leading Veterinary Surgeons.

Price 4/- per lb.

CHLORODYNE VETERINARY.

(Brown, Pink or White.)

Since we introduced Chlorodyne into Veterinary practice, few remedies have met with such success.

It has been very largely used as an analgesic to relieve pain arising from any cause whatsoever. In painful spasm, such as COLIC or ENTERITIS it is invaluable, whilst it is very efficacious in DIARRHŒA or any DYSENTERY in cattle. It is also a useful SUDORIFIC.

"Chlorodyne is highly commended and there can be no doubt that it is a very useful therapeutic agent."—*The Veterinarian*, October, 1887.

Price 5/- per lb.; W. Qts. 4/6 per lb.

LIN. SAPONIS CUM MYRRH ET BENZOIN.

A favourite application as a general surgical dressing, with powerful antiseptic and deodorant properties.

Since its introduction in 1887, it has been largely used by practitioners as a dressing for cuts and bruises and for gangrenous sores. Diluted with water it forms a creamy liquid of marked antiseptic value, whilst undiluted it forms an admirable styptic.

Price 3/6 per lb.; W. Qts. 3/- per lb.

MIST. TONICA CONC.

(Containing Quinine, Dialysed Iron, etc.)

A valuable Tonic and Antipyretic. It is rapidly absorbed by the blood, does not irritate the stomach or constipate the bowels.

Captain RUSSELL, F.R.C.V.S., says:—"As an antipyretic tonic, and as a food to the system, I recommend it strongly to the profession."

Price 2/6 per lb.; W. Qts. 3/- per lb.

Introduced and Prepared only by

C. J. HEWLETT & SON,

Wholesale and Export Druggists, and Analytical Chemists,

Telephone No. 784. **(ESTABLISHED 1832.)** *Reg. Tel. Address: "Pepsine, London."*

40, 41 & 42, CHARLOTTE STREET, LONDON, E.C.
